FOR IMMEDIATE RELEASE  
December 3, 2018

**FW Logistics & Santa to Donate 3,800 Stuffed Animals to E. St. Louis District 189**

*This will serve the entire East St. Louis Area school aged children.*

E. St. Louis, IL.- Beginning at 1:15 p.m., Wednesday December 5, FW Logistics will be arriving at 501 Katherine Dunham Place, E. St. Louis, Illinois to begin its first round of donations at the Vivian Adams Preschool. Leading the way of the semi-trucks will be Santa, who will visit the class rooms along with passing out 3,800 life-sized stuffed animals. The children will be allowed to look at the inside of the trucks and spend time with Santa, in which they may not have been able to do this season.

FW Logistics is active in the East St. Louis community due to their headquarters location being located in Centreville, Illinois. Upon discovering back in June of 2018 that a large majority of the district's grade school children were homeless, FW Logistics decided to start participating in events such as the Back to School drive and Boot and Shoe Drive. This was just one way that they could provide an experience to these children that don't have the simple privileges that other children may have.

Founded in Centreville, IL in 1949. FW Logistics is a second-generation, family-owned, professionally ran, full service logistics company. The company takes pride in the employee family values also known as the FW Family edge. They are still headquartered in Centreville Illinois.
