FOR IMMEDIATE RELEASE

November 20, 2018

FW Logistics Memphis, Tennessee to Open to Clients December 17

This will be the Company's first all temperature-controlled facility.

MEMPHIS, TN.- Beginning at 7 a.m., Saturday, December 17, FW Logistics Memphis will open its doors to public clients which will complete the renovation of the fully temperature-controlled facility including cold to frozen storage. A short ribbon-cutting ceremony will be held on January 14th at 9 a.m. to commemorate the work that has gone into the transformation and successful opening of the facility.

Leading operations at the Memphis location is the FW Logistics General Manager Mike Little. Heading the renovation project is Richard Carver. “The great thing about the facility is that it was an easy renovation. The building has a solid foundation.” Carver said. “We are looking forward to having Mike Little running the place. He has over 19 years in cold storage warehouse experience and actually ran this exact building years ago, which is ironic.” Joining Little at the ribbon cutting will be the President of FW Logistics, Jason Minghini along with Owner, Mark Cusumano.

In June, FW Logistics announced that it would take over the building at 2369 Spottswood Avenue after it was completely renovated, since previously being owned by Americold. FW Logistics Memphis expects to hold 17,000 pallet positions in the three rooms contained throughout the 175,000 sqft building. In total FW Logistics has more than 8,000,000 sqft of space throughout their thirteen locations and employs more than 250 teammates.

Founded in Centreville, IL in 1949. FW Logistics is a second-generation, family-owned, professionally ran, full service logistics company. The company takes pride in the employee family values also known as the FW Family edge. They are still headquartered in Centreville Illinois.
